

INSIDE THE DROP

The structure of youth.

Ten milligrams of bio-identical recombinant human Type I collagen,
suspended in fifty milligrams of hyaluronic acid.

A NEW GENERATION SKIN BOOSTER

RH Collagen Enhanced.

A precision-engineered skin booster delivering 10 mg of pure, bio-identical recombinant human Type I collagen, paired with 50 mg of hyaluronic acid — directly to the dermis.

PER SYRINGE

HULABOO

RH Collagen Enhanced

RH Collagen

10 mg

+ HA 50 mg

Type I
Collagen

2 mL / 1 Box

Promotes smoother, plumper-looking skin — engineered for **dullness, dryness, and loss of firmness.**

Dull skin or uneven tone

Dry skin or rough texture

Loss of firmness or elasticity

The Trunk, not the leaves.

Type I collagen makes up 80–90% of your dermis — the foundation of firmness, density and lift. HULABOO delivers what your skin is built from.

TYPE I

The Trunk

ROLE	The Foundation
FUNCTION	Firmness & Lifting
STRUCTURE	Thick Bundles
DERMAL RATIO	80–90% (Majority)

TYPE III

The Leaves

ROLE	The Support Mesh
FUNCTION	Resilience & Texture
STRUCTURE	Delicate Network
DERMAL RATIO	Minority (High in baby skin)

Engineered for **every** **layer** of renewal.

Wrinkle Correction

Smooths fine lines by rebuilding the collagen architecture that holds the dermis taut.

Elasticity Enhancement

Restores dermal spring so skin recovers its shape faster after stretch or expression.

Intensive Hydration

50 mg of hyaluronic acid draws and binds moisture deep within the skin.

Moisture Retention

Locks hydration into the dermal matrix for long-lasting radiance and plumpness.

Skin Repair

Accelerates the skin's own healing and cell-renewal processes.

Collagen Support

Activates fibroblasts to produce new collagen long after the syringe is empty.

HOW IT WORKS

A three-stage dermal response.

01

Collagen Densification

RH Collagen 10 mg integrates seamlessly, expanding the Type I scaffold that gives skin its structure.

02

Bio-Active Regeneration

Fibroblast activity rises — accelerating cell renewal for scars, texture and tone.

03

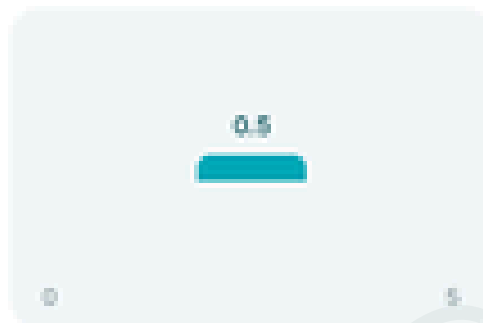

Deep Hydration

HA 50 mg binds up to 1,000x its weight in water — saturating the dermis from within.

CLINICAL RESULTS

Proven in the lab. **Visible** on skin.

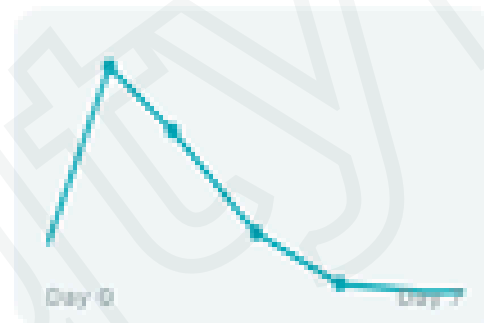

SAFETY

Minimal Inflammation

Subcutaneous inflammation scored just 0.5 ± 0.5 on a 0-5 histopathological scale. No granuloma. No foreign-body response.

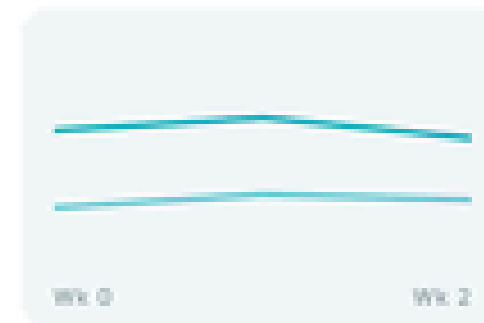

BIODEGRADABILITY

Clean Biodegradation

Peaks at $\sim 4\times$ initial volume on day 1, then fully biodegrades by day 4. Zero long-term residue.

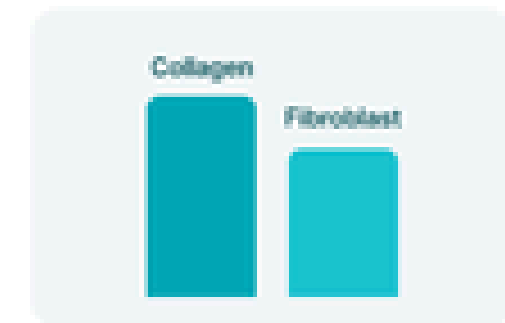

MOISTURE & ELASTICITY

Elevated From Week One

Skin moisture and elasticity were elevated and well-maintained from the first week.

COLLAGEN & FIBROBLAST

New Tissue Growth

Fibroblast production rose, driving an increase in collagen area and continued dermal expansion.

THE RH ADVANTAGE

Not animal. Not marine. Recombinant human.

HULABOO uses RH (recombinant human) collagen produced by advanced biotechnology. Because the structure is identical to your own, your body recognises it as *self* — with high biocompatibility and minimal allergy risk.

Porcine Collagen

Animal-derived

Immune / allergy risk

Ethical concerns

Marine Collagen

Fish-derived

Sustainability concerns

Variable purity

WHERE IT WORKS

Targeted areas, layered protocol.

HULABOO accelerates healing and renewal wherever skin needs structure — face, neck and hands.

• Forehead

• Under-eye & dark circles

• Nasolabial folds

• Acne scars

• Cheeks & jawline

• Neck wrinkles

• Hands

VOLUME

2 mL × 1 Syringe

SESSION

3 sessions, 1 month apart

INGREDIENTS

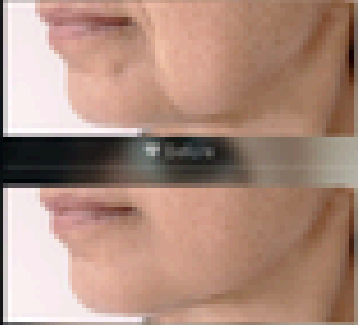

RH Collagen 10 mg · Hyaluronic Acid 50 mg

AREAS

Face · Neck · Hands

BEFORE & AFTER

Visible from the first course.

Before

After

FIRMNESS BOOST

It accelerates the skin healing and cell renewal processes.

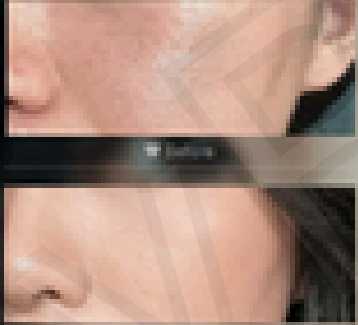

HULABOO

HULABOO

Firmness Boost

Redensified jawline and smoother lower-face contour.

Before

After

PORE REFINING

It accelerates the skin healing and cell renewal processes.

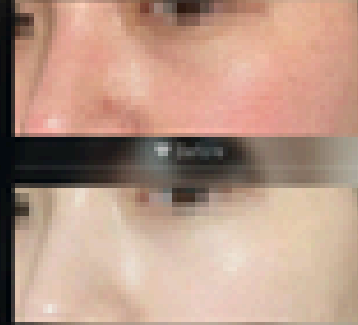

HULABOO

HULABOO

Pore Refining

Refined pore structure and more even surface light reflection.

Before

After

BARRIER REPAIR

It accelerates the skin healing and cell renewal processes.

HULABOO

HULABOO

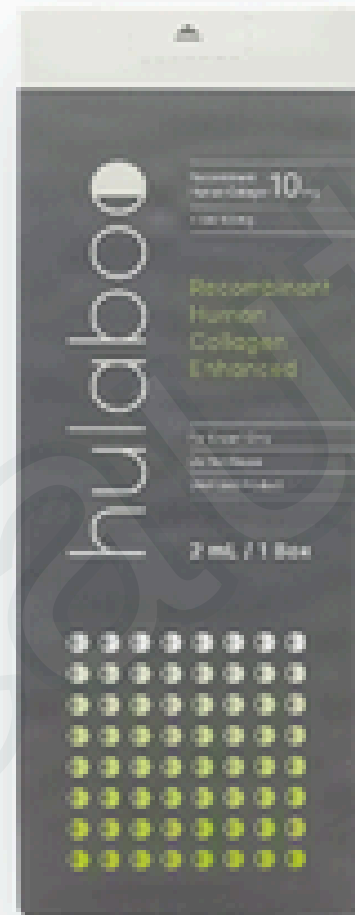

Barrier Repair

Calmer tone, reduced redness, healthier skin barrier.

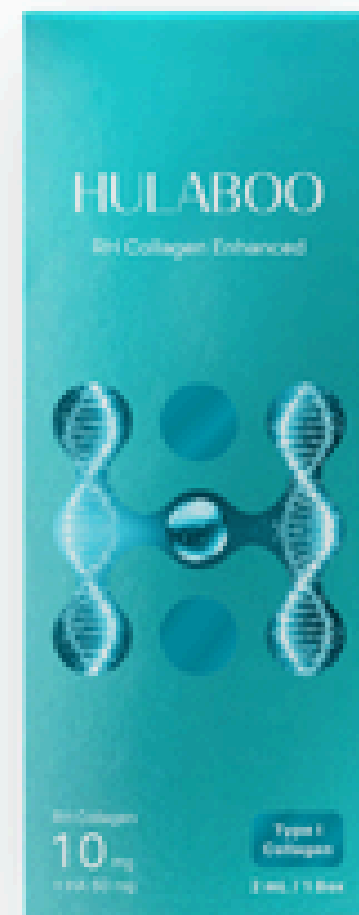

UPGRADE

New Look, Same Formula.

A fresh new look — same formula, same clinical quality.

Previous design

Only the package has changed

AUTHENTICITY

Every box, verified.

HULABOO has updated its packaging. Cartons in the **new design** carry a **MIROCODE** sticker; cartons from the **previous design** carry a **Hidden Tag** sticker. Both are genuine, manufacturer-issued authenticity seals — simply scan with the matching free app.

- 1 Identify the sticker on your carton — **MIROCODE** (new design) or **Hidden Tag** (previous design).
- 2 Download the matching free app on **iOS** or **Android**.
- 3 Scan the sticker to verify authenticity instantly.
