

Lapolyque

Poly-D,L-Lactic Acid + Hyaluronic Acid

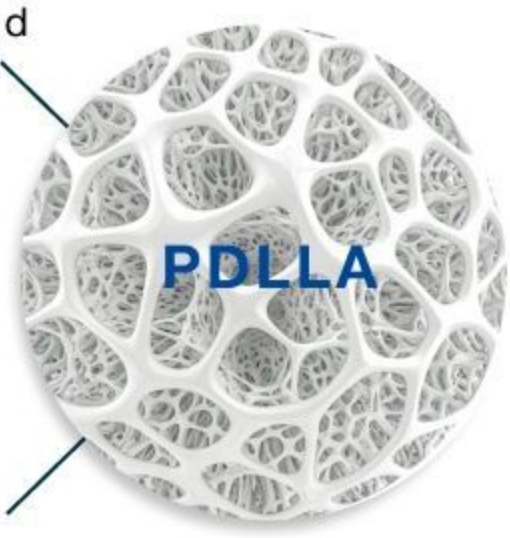

What is Lapolyque?

Lapolyque is a new collagen stimulator containing PDLLA (Poly-D,L-Lactic Acid) and HA (Hyaluronic Acid). PDLLA boosts collagen production, while HA hydrates, enhances volume, and reduces swelling.

Decomposes into water and CO₂ inside the body

Durable and safest stimulation of collagen production

Instant volumizing effect

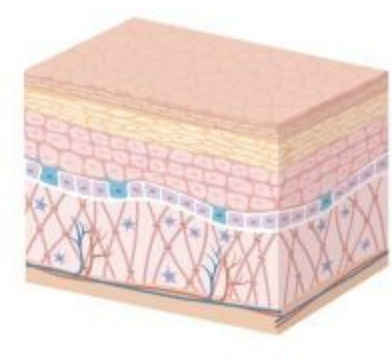

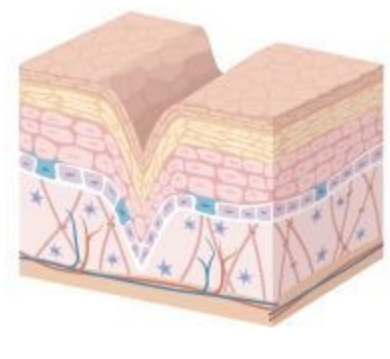

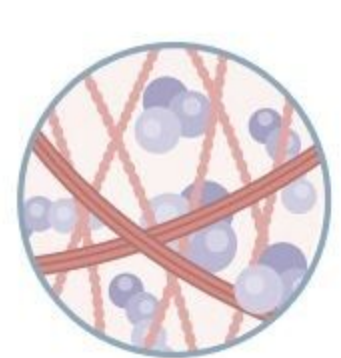

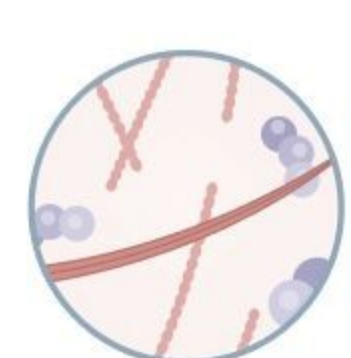

Enhanced hydration effect

Reduces swelling following the treatment

Collagen Restoration with Lapolyque

Why PDLLA + HA?

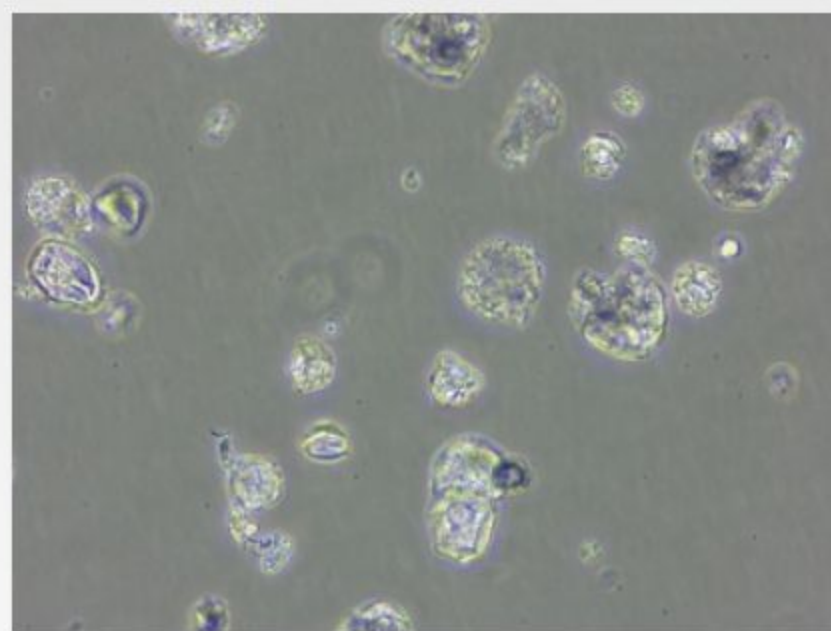

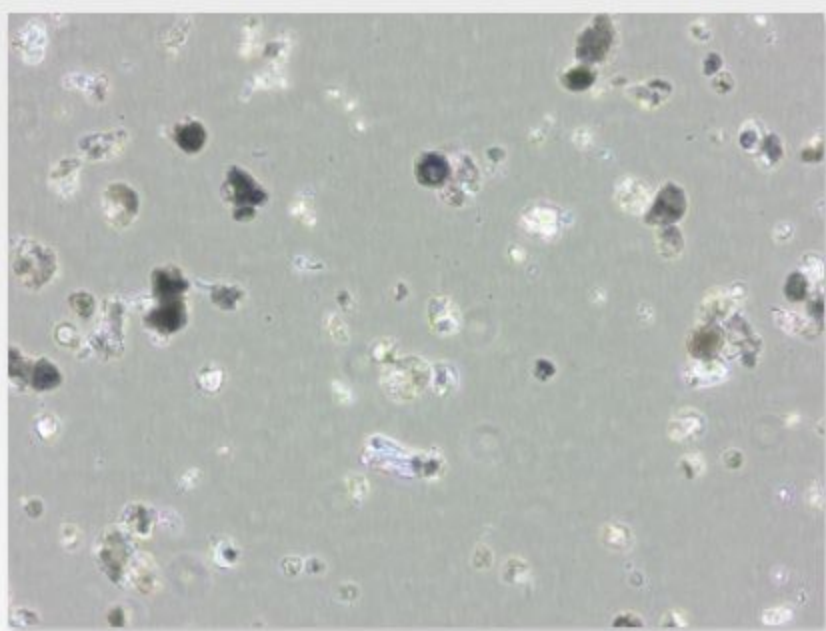

Comparison of Poly-Lactic Acid Variants

Components	PLLA (Poly-L-Lactic Acid)	PDLLA (Poly-D,L-Lactic Acid)	PDLLA + HA (Poly-D,L-Lactic Acid with Hyaluronic Acid)
Decomposition Rates	Slow	Moderate	Fast
Collagen Productions	Gradual stimulation	Balanced stimulation	Intensified collagen stimulation
Particle Structures	Dense	Porous & hollow	Smooth & uniform structure
Biocompatibilities	May cause inflammation	Stable immune response	Optimized skin compatibility
Volume Effects	Gradual & lasting effect	Gradual & lasting effect	Quick & long-lasting volume effect

Physical Properties Comparison

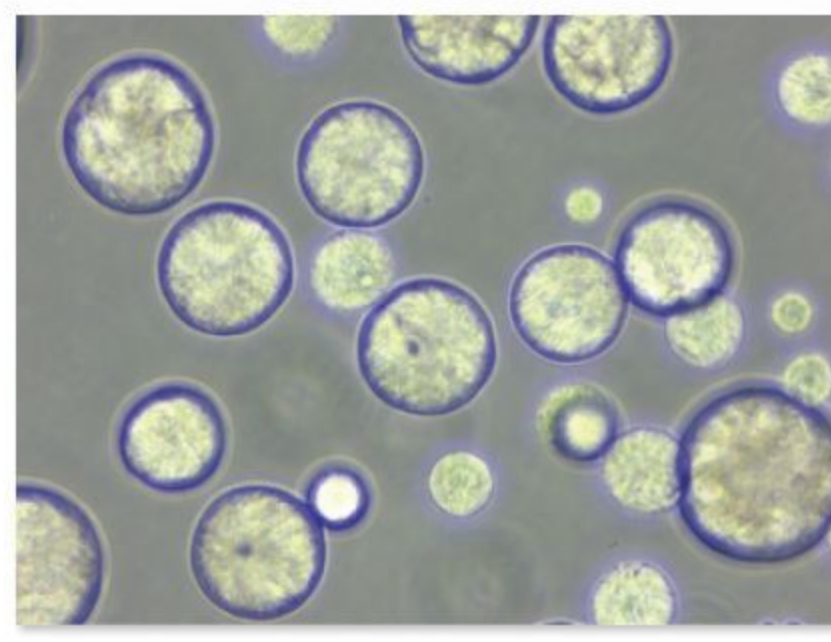

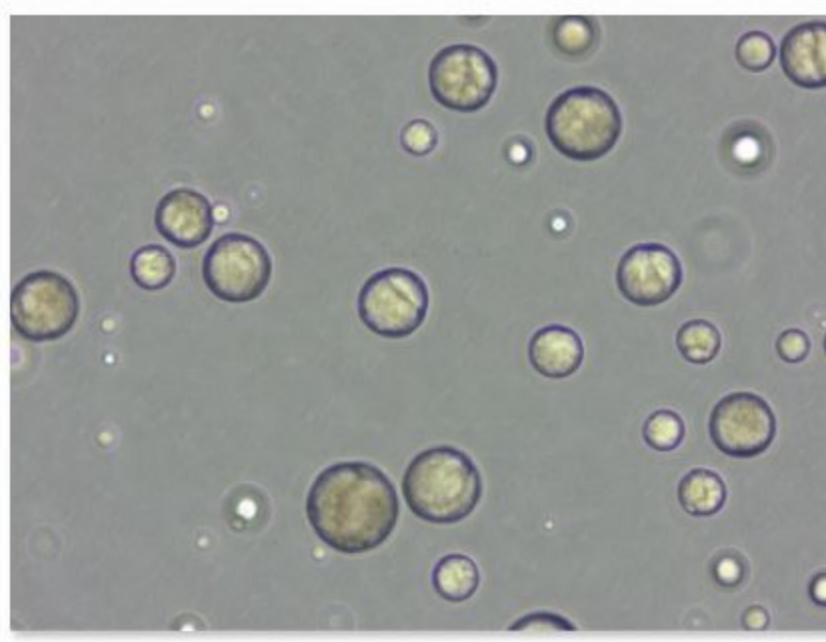

• Product A

Irregular and inconsistent shape

• Lapolyque

Round, regular, and consistent shape

The round molecular structure of PDLLA+HA offers improved stability and enhanced biocompatibility, allowing for better integration with tissues and reducing the risk of inflammation in medical applications.

Benefits of Lapolyque

Lapolyque enhances the plumping and radiant effect of newly produced collagen when introduced into the dermis.

Skin volume restoration

Natural contouring

Correction of both fine and deep wrinkles

Acne scar treatment

Stretch mark improvement

Increased skin elasticity

Before & After

Experience **Lapolyque** for restored confidence and beauty.

Specifications

Product Name	Lapolyque
Active Ingredients	PDLLA 170mg (85%) & HA 30mg (15%)
Package	200mg / vial
Particle Size	30-60 micrometers
Treatment Depth	Dermis
Longevity	18 months
Product Dilution	Sterile distilled water or saline solution (5~8ml)
Recommended Sessions	3 sessions (1 month interval)
