

Product Preparation

For direct application, apply a small amount to the target area, gently spread, and tap for absorption. If using microneedling or injection, adjust the needle depth based on the treatment area (0.2-0.7 mm depending on skin thickness). Airbrush or spray application can also be used for even distribution.

Main Benefits

- ✔ **Reduces Wrinkles & Improves Firmness**
Packed with powerful growth factors that boost collagen and elastin production, helping to smooth fine lines and enhance skin elasticity.
- ✔ **Brightens & Evens Skin Tone**
Antioxidants and melanin-suppressing ingredients help fade dark spots, reduce pigmentation, and promote a radiant complexion.
- ✔ **Deeply Hydrates & Strengthens Skin**
Hyaluronic acid and essential vitamins provide intense moisture, while strengthening the skin barrier for long-lasting hydration.
- ✔ **Protects Against Aging & Environmental Damage**
Antioxidant vitamins fight free radicals, preventing premature aging and keeping skin healthy and youthful.

VX VELATOX

Indications

VELATOX GF11 is designed to target common skin concerns related to aging, dehydration, and uneven skin tone. It helps restore a youthful, healthy appearance by addressing the following issues:

- 1 Wrinkles & Fine Lines**
Reduces visible signs of aging by promoting collagen and elastin regeneration.
- 1 Sagging & Loss of Firmness**
Improves skin elasticity and structure for a firmer, more lifted look.
- 1 Uneven Skin Tone & Hyperpigmentation**
Suppresses melanin production, brightening dark spots and discoloration.
- 1 Dehydration & Weakened Skin Barrier**
Provides deep hydration while strengthening the skin's protective barrier.

Clinical data indicates visible improvements after three treatments administered at two-week intervals, with noticeable effects in individuals experiencing wrinkles, sagging, and pigmentation concerns. VELATOX GF11 delivers optimal results as a targeted skin-rejuvenation solution, but it can also complement other skincare treatments if desired. Proven through clinical evaluation, the formula effectively enhances wrinkle reduction, skin elasticity, hydration, and overall radiance, making it a trusted choice for those seeking a youthful, revitalized complexion.

Active Ingredients

Wrinkle Reduction

Dipeptide Diaminobutyroyl Benzylamide,
Acetyl Hexapeptide-8

Collagen & Elastin Regeneration

EGF (Epidermal Growth Factor), FGF
(Fibroblast Growth Factor), IGF (Insulin-
like Growth Factor), SOD (Superoxide
Dismutase), TRX (Thioredoxin).

Skin Elasticity & Firmness

Acetyl Hexapeptide-8, Palmitoyl
Pentapeptide-4, Palmitoyl Tetrapeptide-7

Antioxidants

Vitamins B2, B3, B12, Nicotinoyl
Tripeptide-1, Adenosine

Moisturizing & Soothing

Hydrol-H6

Skin Brightening & Anti- Pigmentation

Vitamin C, Arbutin, Copper Tripeptide-1

Soothing & Antibacterial

Naturotics Plus, MultiEx BSASM Plus

Strengthening Skin Barrier

Adenosine, Arginine

Mechanism of Action

VELATOX GF11 works by **stimulating the skin's natural regeneration processes**, targeting wrinkles, loss of elasticity, and uneven skin tone.

1. Boosts Collagen & Elastin Production

- Growth factors (EGF, FGF, IGF) signal skin cells to produce more **collagen and elastin**, reducing wrinkles and improving firmness.
- Peptides (Acetyl Hexapeptide-B, Palmitoyl Pentapeptide-4) reinforce skin structure, making it more resilient and youthful.

2. Deeply Hydrates & Strengthens the Skin Barrier

- Hyaluronic Acid & Hydrol-H6 provide intense moisture, keeping the skin plump and smooth.
- Adenosine & Arginine reinforce the skin's protective barrier, preventing moisture loss and enhancing repair.

3. Brightens & Evens Skin Tone

- Vitamin C & Arbutin inhibit melanin production, reducing hyperpigmentation and enhancing radiance.
- Copper Tripeptide-1 promotes skin renewal, leading to a clearer, more even complexion.

4. Fights Free Radicals & Prevents Aging

- SOD (Superoxide Dismutase) & TRX (Thioredoxin) neutralize oxidative stress, protecting skin from environmental damage.
- Vitamin C, B2, B3, B12 act as antioxidants, preventing premature aging and dullness.

By combining these skin-rejuvenating and protective effects, VELATOX GF11 visibly improves skin texture, firmness, hydration, and brightness, helping users achieve a healthier, more youthful appearance.

Treatment areas

Forehead

"Crow's Feet"

Cheek

Worry lines

Smile lines

Chin

Neck

Face:

VELATOX GF11 is designed for targeted facial rejuvenation, helping to reduce wrinkles, improve elasticity, and enhance hydration. It can be applied to:

- **Forehead** – Smooths expression lines and fine wrinkles.
- **Crow's Feet** – Reduces fine lines around the eyes.
- **Nasolabial Folds** – Softens deep smile lines.
- **Cheeks** – Improves firmness and hydration.
- **Chin & Jawline** – Enhances skin structure and reduces sagging.

Body:

While primarily used for facial treatments, VELATOX GF11 may also be applied to areas with skin laxity or dehydration:

- **Neck** – Firms sagging skin and improves texture.
- **Décolletage** – Reduces fine lines and enhances skin elasticity.

Dosage and technique

- Do not exceed 0.2 cc per treatment point to prevent overuse.
- Adjust the depth of application based on the treatment area:
 - Forehead: 0.2 – 0.5 mm
 - Worry lines (frown lines): 0.25 – 0.5 mm
 - Crow's feet: 0.2 – 0.25 mm
 - Checks: 0.2 – 0.5 mm
 - Chin & Neck: 0.2 – 0.7 mm

Application Techniques:

- Direct Application: Apply a small amount to the treatment area, gently spread, and tap for absorption.
- Microneedling/Intradermal Injection: Use a fine needle and adjust depth according to skin thickness.
- Airbrush/Spray Application: For a more even distribution, Velatex can be sprayed using an airbrush device.

Treatment Frequency:

- Recommended to use **once every two weeks** for best results.

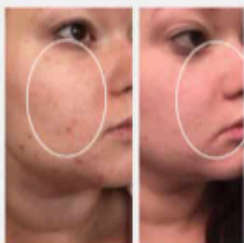

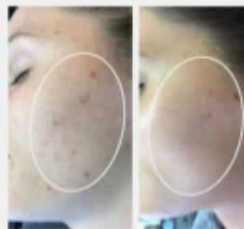

Precautions:

- Use **immediately after opening** and do not mix with other solutions.
- Avoid excessive massaging of the treated area after application.
- Not recommended for use on **sensitive, irritated, or wounded skin**.

Post-treatment

After treatment, avoid touching or massaging the skin to allow proper absorption. Protect your skin from sun exposure by using SPF 30+ sunscreen and avoiding tanning beds or direct sunlight for 48 hours. Refrain from saunas, hot showers, and intense exercise for 24-48 hours to prevent irritation. Keep the skin hydrated with a gentle moisturizer and avoid harsh skincare products like retinoids or exfoliants for 3-5 days. Mild redness or sensitivity is normal and should subside within a day—if irritation persists, consult a skincare professional.
