

DAILYCARE LINE

# Curenex Rejuvenating Cream

A day and night rejuvenating cream created for nourishing hydration, a smoother finish, and better comfort when skin feels dry, dull, or rough.

Day & night use

Nourishing hydration

Smooth, non-greasy finish

120mL presentation

Daily barrier comfort

# Product Overview

Curenex Rejuvenating Cream is developed as an all-around cream for day and night use. The formula is built to nourish and hydrate while helping skin feel softer, smoother, and more comfortable with daily use.

## What It Does

The cream is built to support skin that feels dry, dull, or rough, with a richer format that focuses on comfort and visible refinement. It is designed to help keep skin silky smooth while supporting a fresher overall finish.

The formula is also positioned as part of a daily skincare routine that can be used morning and night without leaving behind a sticky or heavy feel.

## How It Feels

Curenex Rejuvenating Cream is manufactured with a thick consistency and smooth, non-greasy texture. The goal is nourishing and hydrating support with a comfortable finish that feels easy to wear throughout the day or overnight.

It is a strong fit for routines that want a richer final step without making skin feel coated or weighed down.

## FORMAT

Daily-use rejuvenating cream in a 120mL presentation.

## USE

Designed for both day and night application as the last step of a skincare routine.

## GOAL

Smoother texture, better hydration, and more comfortable-looking skin.

# Formulation

Curenex Rejuvenating Cream is part of the Curenex Dailycare line and is formulated to nourish skin from within with hydrating ingredients and a day-to-night routine focus.

# Product Features

The cream focuses on comfort, skin-friendly formulation, and a larger daily-use format that fits easily into a routine.

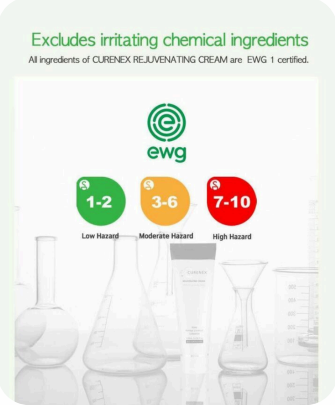

CURENEX REJUVENATING CREAM  
*Silky smooth feeling*

**Silky Smooth**

A thick yet smooth, non-greasy texture designed to deliver nourishing and hydrating effects without the uncomfortable feel of sticky skincare products.

Excludes irritating chemical ingredients  
All ingredients of CURENEX REJUVENATING CREAM are EWG 1 certified.

**Safe & Non-Irritating**

Formulated without the irritating chemical ingredients highlighted on the official product page, with a skin-comfort focus suitable for repeated daily use.

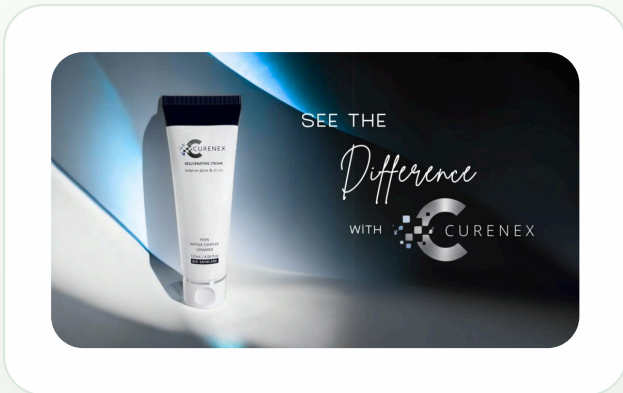

**Certified**

Produced in GMP- and ISO-certified laboratories and presented in a larger-format package for more generous daily application.

## Recommended Protocol

Use Curenex Rejuvenating Cream as the final step in a daily skincare routine whenever the goal is richer hydration, smoother texture, and a more comfortable finish.

### Simple Daily Use

1. Cleanse or wash the face with a preferred face wash product.
2. Apply a generous amount of Curenex Rejuvenating Cream as the last step of the skincare routine.
3. Reapply whenever skin feels dry.

### Routine Fit

The cream is designed for day and night use and works best as a daily finishing step when skin needs moisture, softness, and a more refined-looking surface.

## At A Glance

Curenex Rejuvenating Cream is an all-around daily cream built for nourishment, hydration, and a smoother-looking finish. It fits routines that want richer comfort without the heavy, sticky feel that some creams leave behind.

The result is skin that feels softer, more supported, and easier to keep comfortable through the day or overnight.

## Key Notes

**Type:** Daily rejuvenating cream

**Presentation:** 120mL jar

**Use timing:** Day and night

**Primary focus:** Nourishing hydration, silky texture, and daily skin comfort

## Reference Summary

Curenex Rejuvenating Cream combines a richer moisturizing format with a comfort-first finish. It is a strong option when the goal is smoother, better-hydrated skin that feels supported and polished without becoming greasy or overworked.
