

Tesoro Collagen

An injectable collagen booster built around recombinant human-like collagen with hydration support, created to improve firmness, elasticity, and a smoother, softer-looking finish.

Collagen booster

Hydration support

1 x syringe

2.5mL sold unit

Soft, natural-looking finish

Product Overview

Tesoro Collagen is built for skin that needs more support than moisture alone. The formula centers on collagen support with a softer finish, making it a strong fit for firmness, elasticity, and overall skin density.

What It Is

A collagen-focused injectable skin booster designed to support skin that looks thinner, less elastic, or less held together than it should.

The formula is presented as a syringe-based booster with hydration support, aimed at improving overall skin quality rather than creating a heavy or overbuilt look.

Finish & Feel

The result is a smoother, softer, more supported look. The focus stays on better skin quality, improved density, and a finish that still looks natural in motion.

This makes Tesoro Collagen a strong fit when the goal is restoration, softness, and support that reads as healthy skin rather than surface shine alone.

FORMAT

Single syringe presentation sold on-site as a 2.5mL unit.

FOCUS

Firmness, elasticity, hydration support, and overall skin density.

LOOK

Soft, natural-looking support instead of a heavy or stiff finish.

Tesoro

COLLAGEN

Results you can see —
safety you can trust.

Collagen that works
like your own.

Powered by **Recombinant Human-Like Collagen (RHLC)**, **Tesoro Collagen** is a premium injectable that rebuilds the dermis — not just fills or stretches it.

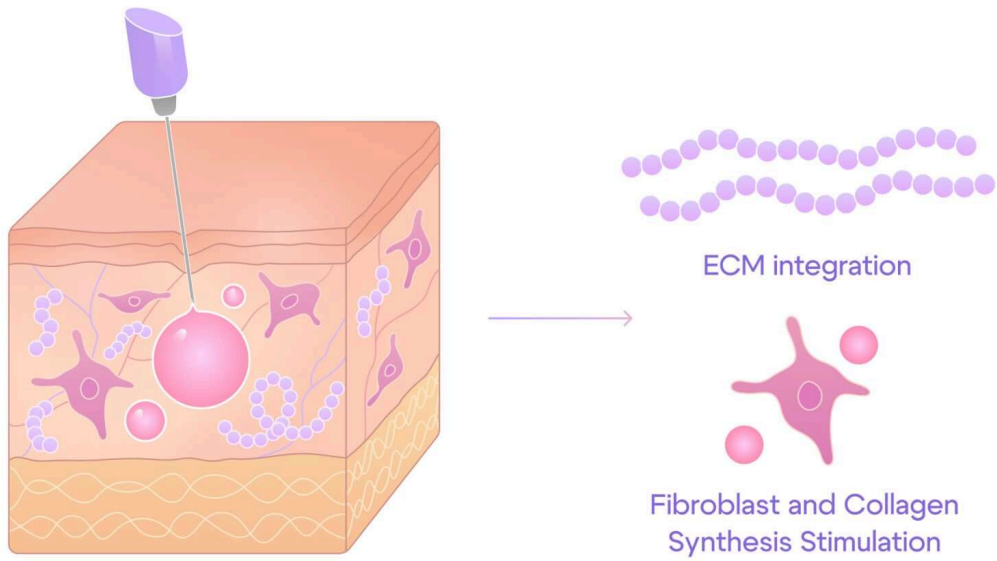

Bioidentical, non-animal, and clinically proven, it stimulates your skin's natural collagen production for results that look authentic and feel real.

No swelling. No overcorrection. Just visibly healthier, firmer, more radiant skin — safely and predictably.

Tesoro Collagen is designed for both early prevention and visible correction of age-related skin changes:

Problem	Tesoro's Action
 Fine Lines & Wrinkles	Softens expression lines (eyes, mouth, forehead) without freezing natural movement
 Skin Laxity	Firms crepey or sagging skin (cheeks, jawline, neck, décolleté)
 Dullness / Dehydration	Delivers deep hydration and glow through the collagen moisture network
 Uneven Tone / Dark Spots	Reduces inflammation and brightens photoaged or uneven skin
 Acne Scars	Stimulates new collagen to help lift atrophic scars
 Sensitive Skin / Post-Treatment	Ultra-pure formula ideal after laser, peel, or RF treatments

Procedure Protocol

Combination Treatments

Compatible with: ● Laser / RF microneedling | ● HA fillers in the same session

● Tesoro Collagen does not cause swelling → ideal for combination protocols

Injection

Technique	Method	Needle & Equipment
Papular Technique	Manual microinjections into the superficial dermis at a 10–15° angle. Creates visible white papules that fade within hours. Ideal for precision, glow, and texture refinement.	30G–32G needle, 4–6 mm length
Cannula Technique	Retrograde fanning or linear threading in mid-to-deep dermis via a single entry point. No papules form. Suitable for volumetric areas like cheeks or jawline	25G–27G cannula (38–50 mm), 25G needle for entry

Treatment Plan Course:

- 3 sessions, every 4 weeks
- Visible results after session 2
- Maintenance: 1 session every 6–12 months
- Prevention (young skin): 1–2 sessions
- Scarring/Mature skin: up to 4 sessions

Dosage & Grid Pattern

Full Face:

- 1–2 syringes (2–4 mL) per session
- Grid spacing: 1 cm apart (3–5 mm for targeted zones)
- Microdose per point: 0.02–0.03 mL

Periorbital Area:

- 1 mL total (both sides)

At A Glance

Tesoro Collagen is a collagen booster for skin that needs more structure, smoother texture, and better-looking support over time.

It fits well when the priority is improving the look of elasticity, softness, and skin quality while keeping the result refined and natural-looking.

Key Notes

Type: Injectable collagen booster

Presentation: Syringe format

Sold unit: 1 x syringe, 2.5mL

Primary focus: Firmness, elasticity, hydration support, and overall skin density

Reference Summary

Tesoro Collagen combines collagen-focused support with hydration to help skin look better supported, smoother, and more restored. It is strongest in routines where overall skin quality and a softer, healthier finish matter more than quick surface glow alone.
