

# HAIRNA Exosome Hair Fill 1 x 2,5 ml

**HAIRNA Exosome Hair Fill** is a hair filler that revitalizes both the scalp. Thanks to the harmonious interaction of exosomes, growth factors and active ingredients, this formula strengthens the protective barriers of the scalp, actively combating hair loss and restoring balance to unhealthy scalps. HAIRNA Exosome Hair Fill is a preparation designed to rejuvenate the scalp and stimulate hair growth. The effect of using the HAIRNA Exosome Hair Fill cocktail is a general improvement in the condition of the hair and its thickening.

## **Intended use:**

loss of collagen in hair follicles caused by aging

loss of capillaries in the scalp, limiting the supply of oxygen and nutrients to the hair follicles

reduced ability to regenerate and heal the scalp, due to disruption of the skin's protective barrier

## **Effects of use:**

preventing hair loss

nourishing the scalp and hair bulbs

strengthening the hair structure

anti-inflammatory effect

acceleration of wound healing

strengthening the protective barrier of the scalp

## **Application method:**

Dermapen

1. Divide the scalp into sections.
2. Apply the filler using a dermapen in a vertical-horizontal-diagonal direction 5-10 times.

Mesotherapy

1. Apply topical numbing cream to the targeted scalp area.
2. After 30 minutes, wash off the applied cream.
3. Then wipe the needle with alcohol and insert it into the syringe.
4. Inject the preparation into the target area using a 30G needle to a depth of 1-1.2 mm.

For best results, this procedure should be repeated once a week for 2-3 months.

**Ingredients (INCI):**

Water - the basis of the formula, providing essential hydration for optimal scalp health.

Exosomes - revolutionary rejuvenation and strong regeneration.

Sodium chloride - balances the level of hydration, contributing to the nourishment and revitalization of the scalp.

Sodium hyaluronate - improves hydration, promotes elasticity and smoother hair texture.

Sodium phosphate - supports scalp health and helps maintain pH balance in optimal conditions.

Copper tripeptide-1 - stimulates collagen production, contributing to hair strength and vitality.

Sodium Bicarbonate - Acts as a gentle exfoliant, providing a clean and refreshed scalp environment.

Zinc sulfate - promotes hair growth and helps maintain a healthy scalp.

Biotin - Known for its role in promoting hair growth and overall hair health.

Panthenol - conditions and nourishes the hair, leaving it soft and easy to style.

Calcium pantothenate - essential for healthy hair, contributes to its strength and shine.

Biotinoyl tripeptide-1 - helps reduce hair loss by contributing to hair thickening.

Thiamine diphosphate - improves blood circulation in the scalp, supporting the health of hair follicles.

sh-Polypeptide-1 (FGF2) - stimulates cell growth, helping to regenerate healthy hair cells.

sh-Polypeptide-4 (SCF) - supports the maintenance of hair follicles and prevents hair loss.

sh-Polypeptide-13 (Noggin) - has a regulatory function, contributing to the balance of hair growth factors.

Pyridoxine HCL - essential for maintaining a healthy scalp and preventing dryness.

Folic acid - promotes cell division, supporting the growth of healthy hair strands.

**Packaging:**

1 x 2.5 ml pre-filled syringe
